

## Evidences

### Study #2574

**Contributing Projects:**

- P66 - Global policy support for biologically diverse, climate resilient agriculture

**Part I: Public communications**

**Type:** OICR: Outcome Impact Case Report

**Status:** Completed

**Year:** 2018

**Title:** Model community biocultural protocols developed to promote farmers' as managers, providers and recipients of genetic materials and expertise for climate change adaptation'

**Commissioning Study:** <Not Defined>

**Part II: CGIAR system level reporting**

**Links to the Strategic Results Framework:**

Sub-IDs:

- Increased conservation and use of genetic resources
- Gender-equitable control of productive assets and resources

Is this OICR linked to some SRF 2022/2030 target?: Too early to say

Comment: <Not Defined>

**Geographic scope:**

- Sub-national

Country(ies):

- Benin

Comments: The community biocultural protocols adopted in Benin (2018) and Madagascar (2017) should be models for use in other countries. Publications and P1589 activities in 2019 will raise awareness about them.
