

Evidences

Study #3238

Contributing Projects:

- P251 - Reducing agro-food induced GHG emissions through effective FLW reducing strategies

Part I: Public communications

Type: OICR: Outcome Impact Case Report

Status: Ready to be reported on

Year: 2019

Title: Dutch ministry of Agriculture, Nature and Food Quality is stimulating circularity (including reducing FLW, reducing GHG emissions) through new platform

Commissioning Study: <Not Defined>

Part II: CGIAR system level reporting

Links to the Strategic Results Framework:

Sub-IDOs:

- Reduce pre- and post-harvest losses, including those caused by climate change

Is this OICR linked to some SRF 2022/2030 target?: Too early to say

Comment: <Not Defined>

Geographic scope:

- National

Country(ies):

- Netherlands

Comments: In line with this initiative in The Netherlands, we are working on a 'Green deal' in EU of a "Farm to Fork Strategy" initiative, addressing FLW and GHG emissions.
