

## Manure storage container for small-scale dairy farms

**Project Title:** P249 - Upscaling promising livestock options for mitigating greenhouse gas emissions in Asia

**Description of the innovation:** Container of 1 m<sup>3</sup> for manure storage on small-scale dairy farms that have little space in or next to the barn for storing manure. Multiple containers can be used for composting of manure.

**New Innovation:** No

**Stage of innovation:** Stage 1: discovery/proof of concept (PC - end of research phase)

**Innovation type:** Production systems and Management practices

**Geographic Scope:** Sub-national

**Number of individual improved lines/varieties:** <Not Applicable>

**Country(ies):**

- Indonesia

**Description of Stage reached:** Testing innovation at a model farm of the dairy cooperative (controlled setting) and on 1 practical dairy farm.

**Name of lead organization/entity to take innovation to this stage:** WUR - Wageningen University and Research Centre

**Names of top five contributing organizations/entities to this stage:**

- KPSBU - Koperasi Peternak Sapi Bandung Utara (Lembang)

**Milestones:** No milestones associated

**Sub-IDs:**

**Contributing Centers/PPA partners:**

**Evidence link:** N/A

**Deliverables associated:** <Not Defined>

**Contributing CRPs/Platforms:**

- CCAFS - Climate Change, Agriculture and Food Security
