

Ecosystem-based adaptation monitoring platform in the Gambia

Project Title: P800 - 8. Climate change adaptation

Description of the innovation: The EbA project M&E information platform will serve as the go-to place to acquire details about the progress of activities linked to the Large-scale Ecosystem-based Adaptation Project in The Gambia. The platform is based on the key performance indicators for the project and the sub-indicators.

New Innovation: Yes

Stage of innovation: Stage 2: successful piloting (PIL - end of piloting phase)

Innovation type: Research and Communication Methodologies and Tools

Geographic Scope: National

Country(ies):

- Gambia (the)

Description of Stage reached: The platform has been fully developed and is now in testing phase

Name of lead organization/entity to take innovation to this stage: ICRAF - World Agroforestry Centre

Names of top five contributing organizations/entities to this stage:

- ICRAF - World Agroforestry Centre
- MECCNAR - Ministry of Environment, Climate Change and Natural Resources (Gambia)

Milestones:

• Ecosystem-based adaptation (EbA) options that raise adaptive capacity of social groups identified and applied in case studies

Sub-IDs:

- 31 - Reduced net greenhouse gas emissions from agriculture, forests and other forms of land-use (Mitigation and adaptation achieved)
- 34 - Enhanced capacity to deal with climatic risks and extremes (Mitigation and adaptation achieved)

Contributing Centers/PPA partners:

- ICRAF - World Agroforestry Centre
