

## Elite winter wheat lines.

---

**Project Title:** P1365 - Improve winter wheat for farmer relevant traits

**Description of the innovation:** New winter and facultative wheat varieties developed by IWWIP (Turkey-CIMMYT-ICARDA) for irrigated and semi-arid environments and it has been made available to public and private breeding and research programs globally.

**New Innovation:** Yes

**Stage of innovation:** Stage 3: available/ ready for uptake (AV)

**Innovation type:** Genetic (varieties and breeds)

**Geographic Scope:** Multi-national

**Country(ies):**

- Russian Federation (the)
- Kazakhstan
- Georgia
- Turkey
- Uzbekistan

**Description of Stage reached:** The seeds of the elite lines have been distributed through IWWIP international nurseries framework and available via the website (see evidence link).

**Name of lead organization/entity to take innovation to this stage:** CIMMYT - Centro Internacional de Mejoramiento de Maíz y Trigo

**Names of top five contributing organizations/entities to this stage:** • BDIARI / BDUTAE - Bahri Dagdas International Agricultural Research Institute

- ICARDA - International Center for Agricultural Research in the Dry Areas

**Milestones:** No milestones associated

**Sub-IDs:**

**Contributing Centers/PPA partners:**
